1989 DEER HUNTING AND HARVEST REPORT

APRIL 26, 1990

PREFACE

Survey Approach

Resident and nonresident deer license holders were randomly sampled from a population of all resident and nonresident deer license holders in our license database. Deer hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

TOTAL HUNTERS	The number of hunters who hunted one or more days
TOTAL HUNTER DAYS	Sum of whole days or portions of days hunted
SUCCESSFUL HUNTERS	The number of hunters who killed one or more deer
PERCENT SUCCESS	The number of successful hunters divided by the total number of hunters and multiplied times 100
RSDNT	A symbol for resident
NRSDNT	A symbol for nonresident
ANTL-	A symbol for antlerless
ANTL+	A symbol for antlered
UNKWN	A symbol for unknown used to designate unknown sex
GEN A	An abbreviation for general deer "A" license, including those deer "A" licenses included with the resident Sportsman's license and nonresident Big Game Combination and Deer Combination licenses
GEN OC MD	An abbreviation for general, unlimited, multi-district, antlerless mule deer "B" license
GEN OC WT	An abbreviation for general, unlimited, multi-district, antlerless whitetail deer "B" license
SP	An abbreviation for special license or permit
UNKNOWN	A license category where the license used to take the deer was unknown
LOWER	Lower confidence limit at a level of confidence of 80 percent
POINT	The estimated value
UPPER	Upper confidence limit at a level of confidence of 80 percent

Explanations

The deer hunting and harvest statistics are estimates made from a sample of 49,147 questionnaires representing about 27 percent of all deer license holders. Confidence-interval estimates are given for resident and nonresident combined hunting statistics and for mule deer, whitetail, and combined deer harvest statistics. Confidence intervals are given at the 80 percent confidence level, meaning that the actual value will be between the lower and upper limit in four out of five cases. The relative precision of the estimate increases with the size of the estimate. Regional estimates have greater relative precision than district estimates and the statewide estimates have the greatest relative precision.

(CONTINUED)

PREFACE (CONTINUED)

All valid response data are used in the estimates even when some data fields are missing. This is the reason for the various unknown categories given in the report. The unknown license type given in the harvest sections is used to represent deer kills which could not be associated with a particular licnese/season type. Hunting or harvest activity in an unknown or invalid hunting district within a valid region is represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.

TIME PERIOD OF KILL REPORT

MONTANA DEPARTMENT OF FISH, WILDLIFE & PARKS

1989 DEER TIME PERIOD OF KILL REPORT

MAY 1, 1990

PREFACE

Survey Approach

Resident and nonresident deer license holders were randomly sampled from a population of all resident and nonresident deer license holders in our license database. Deer hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

UNKWN	A symbol for unknown used to designate unknown time period of kill
GEN A	An abbreviation for general deer "A" license, including those deer "A" licenses included with the resident Sportsman's license and nonresident Big Game Combination and Deer Combination licenses
GEN OC MD	An abbreviation for general, unlimited, multi-district, antlerless mule deer "B" license
GEN OC WT	An abbreviation for general, unlimited, multi-district, antlerless whitetail deer "B" license
SP	An abbreviation for special license or permit
UNKNOWN	A license category where the license used to take the deer was unknown

Explanations

The deer time period of kill statistics are from a sample of 49,147 questionnaires representing about 27 percent of all deer licnese holders. No expansions or estimates are given. The percentages are from the actual sample data collected. Sample number killed in each license category is given on the right side of each page. To obtain estimates of the actual number killed in a given time period, the percentages can be applied to the kill statistics in the hunting and harvest section of this report.

All valid response data are used in the analyses even when some data fields are missing. This is the reason for the various unknown categories given in the report. The unknown license type given in the harvest sections is used to represent deer kills which could not be associated with a particular licnese/season type. Hunting or harvest activity in an unknown or invalid hunting district within a valid region is represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.

ANTLER STATISTICS

MONTANA DEPARTMENT OF FISH, WILDLIFE & PARKS

1989 MULE DEER ANTLER STATISTICS

MAY 2, 1990

PREFACE

Survey Approach

Resident and nonresident deer license holders were randomly sampled from a population of all resident and nonresident deer license holders in our license database. Deer hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

ANTLER TYPE...	The number of points on each side
FREQUENCY.....	The number of occurances of the given antler type in the given hunting unit within the sample data obtained
PERCENT.......	The percentage of the total represented by each frequency

Explanations

The deer antler point statistics are from a sample of 49,147 questionnaires representing about 27 percent of all deer licnese holders. No expansions or estimates are given. The frequencies and percentages are from the actual sample data collected. Total sample number killed in each hunting unit is given at the bottom of the frequency column. To obtain estimates of the actual number killed with a particular antler point count the percentages can be applied to the kill statistics for bucks in the hunting and harvest section of this report.

All valid response data are used in the analyses even when some data fields are missing. This is the reason for the unknown hunting unit categories given in the report. Kills in an unknown or invalid hunting district within a valid region are represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.

LICENSES & GENERAL INFORMATION

- Sportsmen may hold and fill both a deer A and a deer B license. There are no requirements regarding the order of obtaining nor the order of filling either license.
- Sportsmen are limited to one deer A license per year, which is included in the resident's Sportsman's License, the nonresident Big Game Combination License and the nonresident Deer Combination License.
- Nonresident Deer Combination License holders that are landowner sponsored are reminded the license entitles them to hunt deer and upland game birds only on the land owned by the landowner sponsor. This does not include leased or public land. The license is valid statewide for fishing only. A general upland game bird license would be required to hunt statewide for upland game birds. The upland game bird license may be purchased at any Fish, Wildlife and Parks office or at most license agents throughout the state.
- Sportsmen may hold and fill more than one deer B license, subject to all specifications on the license issued. Opportunities to obtain a deer B license(s) include:
  1. Special drawing licenses, subject to all specifications on the license issued. (Some successful special drawing applicants also may be offered the opportunity to purchase additional deer B licenses subject to all specifications on the license issued.)
  2. Over-the-counter purchase for antlerless whitetail or antlerless mule deer only. (See information this page.)
  3. Special drawings or over-the-counter purchase of deer B licenses subject to all specifications on the license, may be coordinated by a Regional Headquarters.
- Sportsmen harvesting a deer must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head.

Landowner Preference

- Montana landowners who qualify may receive preference in the deer B licenses and/or deer permits special drawings to hunt on their own land. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. If the license is valid for a portion of the hunting district only, the landowner must own land within that portion. The land must be used primarily for agricultural purposes.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or employed ranch manager. Only one person may use or designate preference in a partnership or corporation.

Unlimited, Multi-district, Antlerless Whitetail Deer B Licenses

- Sportsmen may purchase only one multi-district whitetail deer B license per year. This may be in addition to purchasing one multi-district mule deer B license and applying for a deer B license through the special drawings.
- Licenses are available from license agents within the 400, 600 and 700 series districts and all Fish, Wildlife and Parks offices, beginning early September.
- Licenses are valid for antlerless white-tailed deer only.
- Licenses are valid in any hunting district beginning with the number 4, except not valid in 400, 401, 402, 403 and 406; valid in all of hunting district 540 and the portion of 580 north of Sweetgrass Creek; and any hunting district beginning with the number 6 or 7.
- Licenses are valid Oct. 22-Nov. 26, with the following exception: valid in hunting district 641 from Oct. 22-Nov. 12 only.

Unlimited, Multi-district, Antlerless Mule Deer B Licenses

- Sportsman may purchase only one multi-district mule deer B license per year. This may be in addition to purchasing one multi-district whitetail deer B license and applying for a deer B license through the special drawings.
- Licenses are available from license agents within the 600 and 700 series districts and all Fish, Wildlife and Parks offices, beginning early September.
- Licenses are valid for antlerless mule deer only.
- Licenses are valid in any hunting district beginning with the numbers 6 or 7. Licenses are not valid on the Charles M. Russell National Wildlife Refuge or on Brinkman Game Preserve.
- Licenses are valid Oct. 22-Nov. 26, with the following exception: valid in hunting district 641 from Oct. 22 - Nov. 12 only.

LICENSES & GENERAL INFORMATION

- Sportsmen may purchase only one elk license per year, which is included in the resident Sportsman's License and the nonresident Big Game Combination License.
- Only nonresidents holding a Big Game Combination License may hunt elk.
- Sportsmen harvesting an elk must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head.
- Sportsmen may not hold both an A-5 elk license and an A-7 antlerless elk license. Holders of an A-7 license must hunt antlerless elk only in the designated area and **may not** hunt elk anywhere else in the state (bull or antlerless) in the 1989 season. If successful in drawing an A-7 license, the sportsman must obtain the A-7 license by Sept. 2, or forfeit the A-7 license. Only legal residents of Montana are eligible for A-7 licenses. If after obtaining the A-7 license the season in the designated area closes before there is an opportunity to hunt, a refund will be given and an A-5 license may be purchased.

Landowner Preference

- Montana landowners who qualify may receive preference in the elk permit and A-7 cow elk license special drawings to hunt on their own land. To qualify, the applicant must own 640 acres of contiguous land used by elk or where elk are known to occur at anytime during the year. If the permit is valid for a portion of the hunting district only, the landowner must own land within that portion. When applying landowner preference, the permit or A-7 cow elk license is valid only on land owned in fee title by the applicant within the hunting district applied for.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or a person employed by the landowner. Only one person may use or designate preference in a partnership or corporation.

Elk Prerequisite

- Residents and nonresidents are required to purchase a general elk license prior to applying for a special elk permit. Applicants must list their 1989 general elk license number in the designated space on the 1989 special drawing application form, or their application will be eliminated from the elk special drawings.
